# My Portfolio

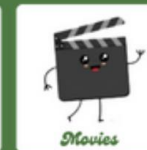

# heuuwo!!

My name is **Renz Paul Fababeir**. I'm an aspiring UI/UX and Graphic Designer! An Undergrad Student from Polytechnic University of the Philipines under Bachelor of Science in Information Technology.

I'm currently working on my design skills and I'm excited to explore something new and improve a lot! My portfolio shows the projects that I have done in the previous years! My accomplishments outside the IT field will have a spotlight too!

Project  
Project-Manager

**algori** → **tees**

**Algori-Tees** is a proposed ecommerce apparel shop name for our project in System Integration and Architecture 1. I created the logo and the shop name, which is play on words, Algorithms = Algori-Tees! Reason why I made the logo a flowchart that is designed as a Tee!

1

**drafts:**

## BYEOL

**Byeol** is a Korean word that means **Star!** Byeol is an ecommerce shop name for our project in Web Development. I created the Logo as well as the shop name, which means that each item the shop offers is a star in its own right, waiting to be discovered by its buyer!

## 2

## COMET.AL

**COMET.AL** is also an ecommerce shop name that I made for our project in Web Development. The shop name means "Come Et Al." which means Come Others! The Comet was a birth of the combination, which I also gave meaning too: *"Like comets leaving a trail of wonder, each item in our shop is carefully selected to leave a lasting impression."*

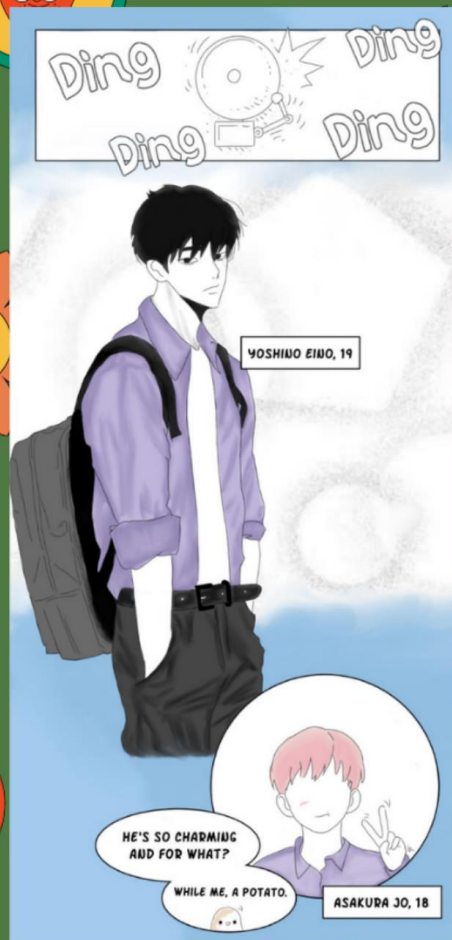

MIKA

**Mika** is a shop name for perfumes. The shop name was not made by me but my client. I had few drafts, which can be seen on the right. But the client liked the one above the most. It's simple and captures the fragrance element that they wanted. It wasn't easy to do this one, but for my first time doing a commission, it was a lot of fun!

3

what  
if?

## What If?

**What If?** is a Manga/Manhwa style artwork i created for our project in Reading Visual Arts. Manga are comics or graphic novels originating from Japan, as someone who loves reading manga, I had the urge to make one for the project, and I got a perfect score for it. It was really hard to make, and a lot of efforts was put into it.

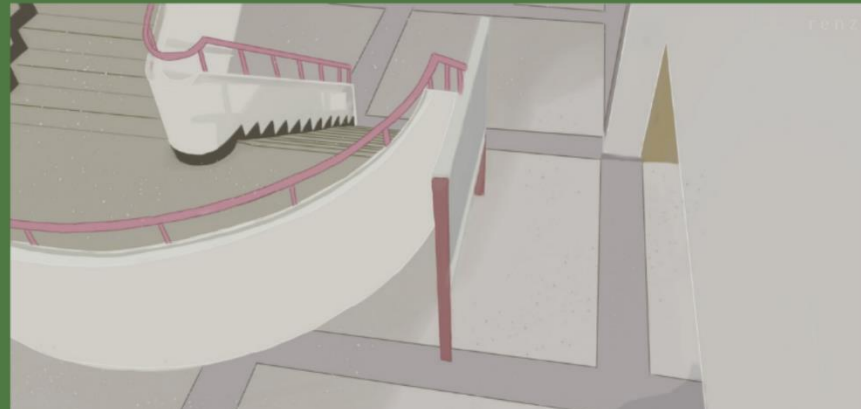

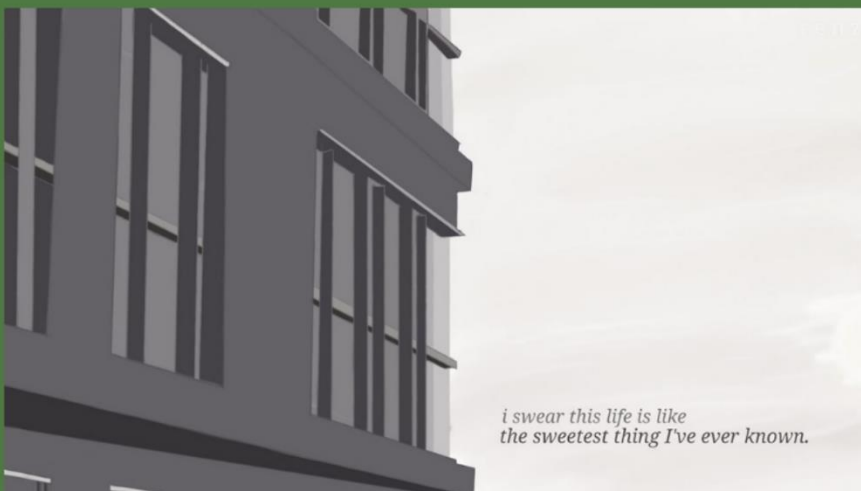

### Synopsis:

Asakura Jo is a typical highschooler, bland, boring, lame, a potato? Then theres Yoshino Eino, the star of the class, a knight in shining armor. Jo liked Eino, and what if Eino also like Jo? What if they're just waiting for one another? What if the wait takes too long? What if...?

## Artworks

맹세합니다  
I swear

close your eyes  
and think of the old days

My artworks are all done by my pretty little fingers on Autodesk Sketchbook! These artworks are special to me because I drew them when the pandemic started, those were the days when I explored random hobbies. The artworks are inspired by various BL Series!

BSIT 2-1  
GOT TALENT

"YOU CAN'T SPELL IT WITHOUT I.T."

2.22.23

You're invited! Via Zoom from 1-5PM

This program was our final project for Understanding the Self. We performed a talent show, and the officers, led by me, managed the entire program. Most of the designs and templates used were done by me!

# Achievements

I am grateful for being consistently on the lister! It is and was exhausting but worth it after seeing these outcomes, hoping that it'll continue till the future!

I am also grateful for achieving a huge milestone in my life! People actually find my tiktok videos fun, and that made me so happy. 1 million is such a huge number for someone who's as unconfident as me.
